

Creating Futures is a non-profit and non-government organization primarily focusing on the IT & ITES sector. It aims to create employment opportunities for the educated rural and urban youth by employing them and providing them with real-life experiences, as well as training them in various skills to make them highly capable corporate-ready resources.

Quarterly Updates

• **Launching the new Creating Futures website:**

Creating Futures revamped its website and launched it in early December. We have made it more user friendly and spiced it with a new look and feel. Website design, content development was done by Srinidhi and Sarath and we are grateful for their support.

Do visit the new website, at www.creatingfutures.in. Please share it with your family and friends and help us promote it.

• **Curriculum & Content Development:** In this quarter we have worked extensively in designing and developing the following:

- * Compilation of questions for Aptitude tests. We have prepared nearly 350 questions and answers with their explanations.
- * An IT Questionnaire, with 700 Question and Answers with explanations.
- * Curriculum for the Life Skills program is being revised. So far we have redesigned the content for section on 'Decision Making' and thanks to *Tenny, Apoorvi* and *Nidhi* for helping us with this.
- * Curriculum and structure for the Internship program which is planned to be of 3 months duration, is being defined. This would include both technical and non-technical content.

Volunteer Speak: Kruthika BS

Creating Futures is an organization that gave me a platform to explore myself and the world around me. I joined Creating Futures as a volunteer for the workshop at Bosco Mane. This was my first experience at volunteering for a workshop of this kind; i.e. life skills development. It was a wonderful experience. Being a volunteer I just didn't help in conducting the workshop but I learnt a lot during the process. The workshop and the people involved in it have inspired me to do more towards the society and also instilled a sense of social responsibility in me. I will definitely continue to be a volunteer and join hands to create excellent futures.

Connect to Creating Futures:

Quarterly Updates

- The Internship program with 3 students continues and this time around focus was on preparing for interviews. Mock interviews were conducted with technical , non – technical and HR rounds to simulate a real world experience.
- Volunteer Data Base have been updated. Currently we have around 80 volunteers, who are part of our initiatives.
- As you know we are working on a Church application development and it is progressing well.

• **Life Skills Workshop @ Bosco Mane**

For the first time, Creating Futures conducted a Life Skill program for young kids, aged 8 - 12 years. This was a 3 day program with the young kids of Bosco Mane. Thanks to Ambika who facilitated this workshop.

Other than this session for young children, another series of Life Skills Workshops enabled by 8 volunteers over a 6 week period in October & November was attended by 28 students. The effectiveness of this workshop as determined by a feedback rating of 4.5 out of 5, is a motivation for us.

Student's Speak

"It was good. Marvelous, enjoyed and learned much." Kusum Singh. D.

"I just loved it. I would love to participate again and again. It is a last day but I wish it would have continued. Thanks for helping us." Syed Waqar Ahmed.
